

Glendale Harvest 'Welly' Appeal - Autumn 2014

As part of our harvest theme this year, we have been looking at how individuals, working together, can make a difference.

Given the desperate plight of some African people who have no clean water to drink, we hope you will work with the school to fill our 'welly' and support water aid.

Over the next two weeks, we are asking the children to see if they can do some small tasks for you and other family members, in order to earn 10p to put in their class wellington boot.

This will be totalled up together and indicated on the school welly in the hall. Y2 will be sorting and counting the money as part of their maths for the week. The coins will also be used to fill in a map of Africa.

On Thursday 2nd October we will have a 'wear your wellies to school' day, and the children will join in a Harvest celebration. Any loose change you may have would be much appreciated this week, in order to finish our map of Africa.

Thank you for helping.
