

Glendale Harvest 'Welly' Appeal

Autumn 2018 - Water Aid

As part of our harvest theme this year, we have been looking at how individuals, working together, can make a difference.

Given the desperate plight of some African people who have no clean water to drink, we hope you will work with the school to fill our 'welly' and support Water Aid.

Over the next week, we are asking the children to see if they can do some small tasks for you and other family members, in order to earn 10p, or more, to put in their class wellington boot.

The money from all classes will be put together to fill a map of Africa, the money raised will be sent to Water Aid.

On Friday 5th October we will have a 'wear your wellies to school' day, and the children will join in a Harvest celebration. Any loose change you may have would be much appreciated this week, in order to help fill our map of Africa.

Thank you for helping.
